Job Title:	UI Engineer (m/f)
Position Type:	Full-Time
Location:	Coimbra (Portugal)
Education:	BSc or MSc in Computer Science or Design and Multimedia
Description:	We are hiring a User Interface Engineer to develop innovative applications for the web and mobile. We are looking for creative people that are interested to master emergent technologies and to participate in projects for international clients with high requirements of quality. We expect candidates to design interfaces that simplify complicated concepts and processes. Working environment is active and friendly.

We require a demo of the existing portfolio.

Candidate Profile:

- 1+ years of experience in application and web design
- Expertise in designing clean, intuitive interfaces and knowledge of current best practices
- Visual design skills and graphics software knowledge
- Experience in HTML, CSS, Javascript, AJAX
- Experience in Adobe Flash, Actionscript and Flex
- Fluent in English
- Good communication skills
- Must be smart, passionate and pragmatic

Our Offer:

- Get involved in attractive and motivating projects, for both national and international customers
- Work with emerging technologies and concepts on the mobile world
- Be part of a young and dynamic team
- Excellent work environment and labour flexibility
- Get a remuneration according to the demonstrated skills over the years
- Generic and specific training according to the needs
- Health insurance

About WIT Software S.A.

WIT-Software is a software company that creates smart applications and services for telecommunication and media companies. WIT provides technical consulting and software development for any company that wants to exploit the power of Mobile and Fixed Communications. The expertise on mobile technologies and software development allows us to deploy products and services for the mobile consumer and enterprise markets. We can provide enterprise application integration, develop application servers, client software for mobile phones, PC, game consoles and TV set top boxes. Our excellence in these areas has lead to strong strategic partnerships with companies like Vodafone Portugal, for whom we have been developing software products since day one.
