

we're hiring

Junior Full Stack Developer

for TravelCentral24 at Madeira HQ, Portugal

DESCRIPTION

TravelCentral24 is a brand for the future of tourism-related interconnected experiences. We believe in empowering travelers with quality information at their fingertips, anywhere they go, whatever service they use. We are the tourist's best buddy in a destination.

We are an early-stage startup in MVP development phase, placing ourselves for a first round of investment.

REQUIREMENTS

Breathing HTML5, Bootstrap, CSS3, JavaScript and PHP. You're engaging, communicative and play well with others. You love to brainstorm and bring great ideas to life. You're a team player. Relax, we know you don't know it all... but your can do attitude takes you a long way.

KEY RESPONSIBILITIES

- Implementing pixel-perfect frontend designs;
- Design and implement our backend architecture;
- Write reusable and testable code;
- Making coffee for colleagues and boss.

KEY SKILLS AND EXPERIENCE

- Ability to produce clean code;
- Good command of the English language (both written and spoken);
- Previous experience in OO programming and web development;
- Good knowledge of PHP, OO design patterns, SOLID principles, KISS and MVC;
- Familiar with MySQL and NoSQL databases;
- Fast learner and eager to be better and better.

TECH WE USE

- Symfony, PHP, Python, MySQL, MongoDB, RESTful APIs, JavaScript, AngularJS and others.

BENEFITS

- The real startup experience in a fast-growing, crazy-paced environment;
- Learning from an incredibly talented team;
- Quick progression and exposure to all areas of the business;
- Flexibility to take time off when necessary and open vacation policy;
- A chance to have fun while working.
