

Machine Learning Engineer / AI Specialist
Location: MadManTech, Funchal, Madeira

Are you either an experienced Machine Learning Engineer or a Software Developer with interest in Artificial Intelligence/Machine Learning?

Then we are looking for you!

We are expanding our development teams at our MadManTech site in Funchal. You can help shape the growing team.

The H-Tech Group develops High Tech devices for Aircrafts, Vehicles and Optronic applications. The team in Funchal will work alongside our development teams at our sites in Germany.

What you will work on:

- Video Image Analysis
- Object Tracking and Classification
- Using Lidar Data for Obstacle Detection

Interested? Let's talk!

Send your application to jobs@madman-tech.com

See you soon!

Software Developer
Location: MadManTech, Funchal, Madeira

Are you a Software Developer with experience in C/C++ development?

Then we are looking for you!

We are expanding our development teams at our MadManTech site in Funchal.
You can help shape the growing team.

The H-Tech Group develops High Tech devices for Aircrafts, Vehicles and Optronic applications.

The team in Funchal will work alongside our development teams at our sites in Germany.

What you will work on:

- Embedded Systems using Linux
- Firmware for Cameras, Video Processing Units, Lidars and more
- Our own 3D Rendering Engine using OpenGL and C++

Interested? Let's talk!

Send your application to jobs@madman-tech.com

See you soon!

FPGA Design Engineer / FPGA Specialist / Digital Design Engineer
Location: MadManTech, Funchal, Madeira

Are you interested in digital / FPGA based data processing and want to work with state-of-the-art tools?

Are you experienced in working on Xilinx or Lattice platforms using either VHDL or Verilog?

Have you already gained experience designing logic using High-Level Synthesis Tools?

Then we are looking for you!

We are expanding our development teams at our MadManTech site in Funchal.

You can help shape the growing team.

The H-Tech Group develops High Tech devices for Aircrafts, Vehicles and optronic applications.

The team in Funchal will work alongside with our development teams at our sites in Germany.

You will work on digital hardware for high-performance applications in a safety-critical environment. You can participate in the entire development process - from concept over simulation and testing to implementation and verification.

Interested? Let's talk!
