

Job offer: 2 Java Software Engineers (m/f) Enschede, The Netherlands

Smart Signs Solutions is a young and promising spin-off of the University of Twente, the Netherlands. We develop and commercialize new wayfinding concepts. Our Smart Signs provide personalized and dynamic wayfinding by identifying the users in the vicinity of the signs and showing relevant information for them, which is kept up to date and adapts to the environment. Our concept is applicable to a broad range of markets, as for example (flex)-offices, airports, hospitals, hotels and cruise ships.

We are developing these concepts in a small, but diverse team full of ambition and enthusiasm. We are currently looking for **two Java Software engineers** to strengthen our team and help us grow.

We **expect** from both software engineers the following:

- Knowledge of Java
- Knowledge of Linux
- Knowledge of relational databases
- Interest in intelligent environments and ubiquitous computing
- University degree in Computer Science
- Ability to work alone and in a team
- High level of written and spoken English
- Knowledge of Dutch is desirable

Software engineer 1 should additionally have knowledge of:

- Embedded systems
- Administration of complex systems

Software engineer 2 should additionally have knowledge of:

- Web technology
- Graphical User Interfaces
- Requirements Engineering

Candidates should have a European Union Passport. Working experience is desirable, but not mandatory.

We **offer** you:

- The possibility to work in the development of innovative concepts in the area of wayfinding and intelligent environments
- Challenging international projects
- The freedom and environment to develop your technical and managerial skills
- An attractive salary
- A flexible pension scheme to fit your situation and wishes
- 26 holidays (working days)
- A laptop

Interested? Send your C.V. and application letter as soon as possible. The closing date is November 15th 2008.
